

How to Enrol

If you wish to help your child improve or excel in Maths, you can arrange for a 'gap' test. This test is a diagnosis of your child's current Maths proficiency skills appropriate for his/her age and school level.

You can also read our students' testimonials to get a feel of how we have helped the many students that came to us at different stages/ages.

What's the next step? Please register for the gap test by filling in the following details and sending an email to: enquiry@numberlinks.com:

- Child's name:
- Current school level i.e. N()/K(); Pr(); Sec()/ JC():
- Mailing address:
- Postal code:
- Parents' name:
- Parents' mobile handphone contact no:
- Parents' email address:
- Preferred gap test time slot (1 hour) on Sunday: ___am/___pm

The fee for the gap test is \$30, which becomes the registration fee when your child enrolls.

NOTE

The ideal ages for enrollment are as follows;

1. Pre-school: from N2 onwards
2. Primary level: end of Pri 1, 2, 3, and 4 (as students need at least 2 years' preparation for the PSLE exam; we do not enroll students at the end of Pri 5)
3. Secondary level: Post Pri 6, and end of Sec 1 and 2 (students need at least 2 years' preparation for the 'O' level exam)
4. JC level: start of JC 1
